The MetroSpec LCD Digital Bus Stop Totem is an outdoor digital alternative for installation at street level at Bus. Tram and Light Rail Stops.

25 Flinders Parade. NORTH LAKES QLD 4509.

Metrospec LCD Digital Bus Stop Totem

This weather resistant, sleek totem digital bus stop design features a 32" High Bright LCD Display which is readable in direct sunlight. However, this design can be scaled up to fit other sized panels in it from 32" – 86" in portrait or landscape modes providing a wide viewing angle of 178 degrees with a brightness of up to 4,000 Nits and in different height totem housings.

As this LCD Design is based on our MetroSpec H Series Display, standard features apply such as: Automatic brightness / dimming, HDMI Inputs, Image retention, Image sharpness enhancement, daisy chain imaging, support in multiple languages, 8/10-bit colour processing and much more. The H-Series is designed to be more "environmentally friendly" by using LED backlighting therefore, reducing power consumption.

The glass used to protect the display is 6.4mm 99% UV Limiting Glass which is shatterproof. This glass operates brilliantly in direct sunlight to help reduce heat inside the enclosure limiting thermal screen black outs. The MetroSpec LCD Digital Bus Stop Totem is designed to work in all environments at temperatures from -15 to 50°C. However, our optional intelligent internal control system has been developed and designed to maintain an ideal operating environment inside the totem and extend the operational range to between -35° and +50°C.

The MetroSpec LCD Bus Stop Totem has an inbuilt wireless PC which allows it to connect to the main server where information can be modified or updated if there are any network disruptions.

▶ Metro Spec LCD Digital Bus Stop Totem Specifications

Optional features of our products include: anti-graffiti paint, door alarms, remote controls, SNMP Self Diagnostic reporting, wireless connectivity, touch screen, audio, internal speakers, other inputs and much more.

Accessories	
Items with Totem	Remote Control, AAA Batteries (2), Quick Start Guide
OPTIONS	
Auxiliary Board Options	
Control Interface	RS-232
Internal Temperature & Humidity Sensor	Yes
Open Door Sensor	No
Ventilation Control	Yes
TFT LED Backlight Control	Yes
Front Sensor Board Options	
Control Interface	RS-232
Light Sensor	2 Channels
Infrared Interface	Yes
Sound System Options	
Speaker	2 x 10 Watt Speakers
Other Options	
Other Inputs	Ethernet WI-FI, USB, 3G/4G, Audio
Touch Screens	Infrared or Capacitive
Video Input Options	DVI / VGA / Composite / RGB
Mounting Brackets	Not applicable
Bird Deterrents	Bird Rollers, Bird Spikes, Protection Hoods
Security & Protection Options	Password Protected Remote Control, Condensation Protection Circuitry, Over/Under Temperature Protection, Intelligent Internal Environment Control **
Software Options	MetroSpec Display Monitoring System (MDMS), MetroSpec Network Monitoring Software (MNMS),
