Hearing Loop

IP54 Rated  
Enclosure

Sunlight  
Readable

Text to Voice

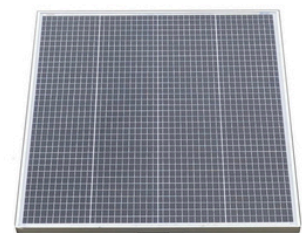

Weather  
Resistant

Low Powered +  
Green Friendly

Designed for  
24/7 Operation

The MetroSpec Outdoor Digital Information Point is designed and manufactured by Metromatics. This unit has a 13.3" sunlight readable LCD screen located at wheelchair accessible heights. It also features an inbuilt hearing loop system and illuminated button that activates text to voice messaging. Voice messaging also connects with hearing aids. This technology is great for those with visual and hearing impairments.

This unit is 4G/LTE Wireless. It runs on a Solar Panel with back up battery. Simply bolt the unit into the ground, switch on, connect the inbuilt computer to the HTML page or content you wish to deliver. It is perfect for clients seeking to add some inclusive digital signage to their community, that will provide people of all abilities with important information and greater freedom.
